**EXAMINER'S AMENDMENT**

The following is an examiner's statement of reasons for allowance:

The claim 1 are allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: a tip individually-sending mechanism configured to lift up the dispensing tips from the tip collecting section to the outlet; a door mechanism including a door which is turnably supported at a top end thereof to close the outlet of the tip storing box from outside and a tip holding section which is provided on an inside of the door to horizontally hold the small-diameter section of one of the dispensing tips lifted up to the outlet by the tip individually-sending mechanism; and a tip carry-out mechanism including a carry-out conveyor to carry the dispensing tips, which are dropped from the tip holding section when the door opens, out of the tip storing box through the outlet, wherein the tip holding section of the door mechanism includes a V-shaped groove which is formed in the door to have a size to hold the small-diameter section of one of the dispensing tips and a tip stopping piece to hold one of the tips lifted up to the outlet by the tip individually-sending mechanism within the V-shaped groove when the door closes, and wherein the tip individually-sending mechanism includes a lifting plate which is driven up and down by a drive source, and the lifting plate has a top end face having a space enough to place only one dispensing tip and a tapered surface that descends toward an outside of the tip storing box.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
